Three principles for inclusion

Setting suitable learning challenges – We aim to give every pupil the opportunity to experience success in learning and to achieve as high standard as possible.

Responding to pupils’ diverse learning needs – We take into account the different backgrounds, experiences, interests and strengths which influence the way in which pupils learn when we plan our approaches to teaching and learning.

Overcoming potential barriers to learning and assessment for individuals and groups of pupils. – We recognise a minority of pupils will have particular learning and assessment requirements that will create barriers to learning if we do not address them through special arrangements.

Legislative Context

‘All schools should admit pupils already identified as having special educational needs, as well as identifying and providing for pupils not previously identified as having SEN . Pupils with special educational needs but without statements must be treated as fairly as all other applicants for admission.’ (Code of Practice 1:33)

It is unlawful for a school to discriminate against a pupil or prospective pupil by treating them less favourably because of their:

- sex
- race

- sexual orientation
- gender reassignment,
- pregnancy or maternity

(Equality Act 2010 – Advice for school leaders, school staff, governing bodies and local authorities)

SEND Identification and Transition

Early identification of pupils with SEND is a crucial factor in overcoming barriers to learning. The SENCO works closely with the school assessment coordinator to interrogate the school tracking data through OTrack, ASPR data and FFT.

At Rudston Primary School we also use a number of additional indicators to identify pupil's special educational needs. Such as:

- Close analysis of data including: EYFSP, SATs, NFER Standardised Scores,
- Any teacher or support staff concerns.
- Following up parental concerns.
- Tracking individual pupil progress over time.
- Liaison with feeder schools on transfer
- Information from previous schools.
- Information from other services.

This assists the SENCO and class teachers to:

- provide starting points for the development of an adapted and appropriate curriculum that meets the pupil's needs;
- support the pupil within the classroom environment;
- continually assess pupils to identify strengths and areas for development;
- provide regular feedback about the pupil's achievements and experiences to form the basis for planning the next steps;
- inform ongoing observation and assessment of each pupil;
- involve parents/carers in supporting pupils at school and at home

The identification and assessment of the special educational needs of children whose first language is not English, requires particular care and attention. Where there is uncertainty about an individual pupil, the school will link with parents (through interpreters if required) to ascertain whether the pupil is developing in their home language in line with peers and siblings. EMTAS advocate the use of assessment materials and provide LA training to support teachers.

SEND Identification and Support

SEN IDENTIFICATION & SUPPORT

This follows the ASSESS, PLAN, DO, REVIEW model of graduated intervention.

- An important feature of SEND support is the collection of all known information about the pupils and those in regular daily contact with the pupil should attempt to deal with concerns raised. When a teacher, support staff or SENDCO identifies a pupil with special educational needs they will provide interventions **ADDITIONAL TO OR DIFFERENT FROM** those provided as part of the school's usual differentiated curriculum offer.

- Intervention will be triggered when concerns about individual pupils receiving differentiated learning opportunities:
 - Make little, slow or no progress.
 - Show sign of difficulty in developing Mathematic and English skills that result in significantly poor attainment in line with age related expectations.
 - Persistent emotional difficulties which continue despite management techniques used in school.
 - Has significant sensory or physical problems that impact on their ability to learn.
 - Has communication and/or relationship difficulties which continue despite differentiated approaches.

- Parents/ Carers will be informed as soon as concerns emerge and will be consulted by the school SENDCO, the views of the pupils will also be sought.
- All information about the pupils from within the school, together with any additional information from the parents will be considered.
- The SENDCO will undertake in house assessment as appropriate and may use outside specialists to enhance the provision.
- The SENDCO will facilitate the collection of all available information about the pupil. Information will be collected from:
 - School staff working with the pupil.
 - School Tracking systems.
 - Parents/carers
 - The pupil

- The class teacher, supported by the SENDCO and in agreement with the parents, carers and pupils the interventions and support that will be put in place and the targets to be achieved. This will be recorded on our school individual pupil profile system.
- Pupil profiles will be reviewed on a termly basis.
- Parents/Carers and pupils will take part in the review process and will be involved in setting further targets.
- A request for additional advice from external services may be made at this stage. The decision to take further advice will be made by the SENDCO in consultation with teaching staff, parents and where appropriate the pupil.

- Progress may be such that the pupils no longer giving a cause for concern and can return to being subject to the usual differentiated curriculum.

- If the pupil:
 - Continues to make little or no progress in specific areas over a long period of time.
 - Continues to work below or significantly below the Age Related Expectations of the National Curriculum.
 - Has emotional difficulties which substantially and regularly interfere with their learning or that of the class, despite having an individualised management programme.

- Has sensory or physical needs and require additional specialist equipment and/or regular advisory visits from an outside agency.
- Has ongoing communication or relationship difficulties which impedes social development and acts as a barrier to learning.
- Is receiving at least £6000 of support and any pupil premium to which they are entitled.

Access to the curriculum, information and associated services.

All pupils at Rudston Primary School have equal access to a broad and balanced curriculum, differentiated to enable ALL pupils to understand the relevance and importance of an appropriate education. This promotes self-esteem and confidence that will lead to pupils making relevant progress that is closely monitored.

Teachers use a wide range of strategies to meet pupil’s special educational needs. Lessons have clear learning objectives and success criteria, are differentiated appropriately and assessed to inform the next stage of learning.

The school’s Learning and Teaching Policy should promote best practice towards students with SEND.

Following The Equality Act 2010 it states that education providers must also make “reasonable adjustments” to ensure that disabled students aren’t discriminated against. Making reasonable adjustments could include:

1. changes to practices or procedures
2. changes to physical features
3. changes to how learners are assessed
- 4 . providing extra support and aids (such as specialist teachers or equipment)”

The obligation for schools to provide extra support such as specialist teachers or equipment will be introduced at a later date.

Relevant information is shared with parents/carers of pupils on SEN support or with an educational health care plan. They receive regular details on the agencies involved with their child’s education and are signposted according to their child’s needs. Key information is also shared within the school to ensure teachers are up to date with developments.

Curriculum and Inclusion

We are full committed to the principle of inclusion and the good practice which makes it possible. Our policy will enable pupils with SEND to be an integral part of our school community.

Regardless of the ages pupils have reached, all pupils will be given full access to the full range of activities the school has to offer. This will be achieved by careful consideration of the needs of each pupil and by either modifying activities or providing support that will help the pupil to participate in the them. Pupils will only be withdrawn when:

1. They will benefit from intensive individual work on a cross curricular skills
2. It is inappropriate or medical advice indicates that it is unsafe for the pupils to participate and an alternative must be arranged.

All pupils have access to our school's broad and balanced curriculum – information of this can be found on our school website: <https://www.rudstonprimary.co.uk/curriculum/>. Teachers provide pupils with differentiated work and provide Quality First Wave One Teaching. Pupils falling just below national expectations will benefit from Wave Two catch up programmes. When a pupil is consistently and significantly falling behind normal expectations Wave Three Interventions will be implemented.

Staff Training and Resources

Once the Governing Body have confirmed the schools budget. The Head Teacher will manage allocated funds from the school's budget and will ensure the best use is made of these resources through provision mapping. It is requirement that schools fund up to the first £6000 of any SEN support for a young person.

At Rudston Primary School we allocate SEN funding in the following ways:

- Learning Support Practitioners and LSO;
- Additional Needs Support, ANS – who are allocated to support year groups
- 1:1 Support
- Training for all Teachers and Learning Support Practitioners so that they can meet pupils needs more effectively;
- Specialist books and equipment;
- In class and withdrawal support from the SENCOs or support staff;
- Ramped access to the main buildings of the school;
- Disabled toilet facilities;
- Purchasing and maintenance of ICT and electronic equipment.

All teaching and support staff are encouraged to attend courses and training that assist them in acquiring the skills needed to work with pupils with SEND. The SENCO provide and co-ordinate school-based INSET and training and targeted support to develop awareness of resources and practical teaching strategies for use with pupils with SEND.

A needs analysis to determine INSET requirements of staff (including Governors) in the area of SEND is conducted annually. The School's INSET needs are included in the School Development Plan.

Evaluating Provision

The SEND register is a fluid working document that is constantly updated and therefore the numbers of pupils on the register will be subject to change. A key element of evaluating the success of the SEND provision provided at the school is covered in the close monitoring of pupil progress data and Annual Reviews.

All teaching and support staff, parents/carers, outside agencies and the pupils themselves are vital to this process. Their feedback along with the monitoring of provision allows us to evaluate the success of the provision and make timely amendments where required. Where interventions have not made the expected impact over the time frame allocated alternative provision may be offered and targets modified.

Working with Parents

At all stages of the special needs process, the school keeps parents/carers fully informed and involved. Regular meetings are scheduled to share the progress of the pupils with parents/carers and take account of their views. It is hoped that this will assist in supporting pupils to reach their full potential. Parents/carers are encouraged to make a full and active contribution to their child's education.

If appropriate meetings are also arranged for parents to meet with external agencies (including Educational Psychologists and Outreach workers) to discuss interventions, targets and support.

This policy and a summary of this policy are available on the school's website.

External Services/Links to other Schools

The SENDCO will oversee and liaise with Health Services, Social Care and other relevant professionals working with pupils in the school. Health Care Planning will follow the protocol agreed by Health and Education. The SENDCO will ensure that staff have relevant training and there are procedures in place to support pupils.

Liverpool has an annual SENCO Transition Forum (KS2/3) in June where any pupils with SEND and/or vulnerable pupils can be discussed in person and a transition plan can be put in place.

All primary schools within an SEN Consortia share best practice and offers support within the locality.
